Frequently Asked Questions

What does “Travel Agent Consent” actually do?

It allows Pride Travelers to **view and book your exclusive casino offers on your behalf**, so you don't have to call or deal with the cruise line directly.

Does this cost me anything?

No—this setting is completely free.

It simply gives us permission to assist you and **secure the best available offers faster**.

Will I lose control of my bookings?

Not at all. You still **own your account and offers**—we're just able to act quickly on your behalf when you want us to.

I don't see Club Royale or Blue Chip Club—what should I do?

If you don't see these options, it usually means:

- You may not be logged into the correct account
- You may not have casino offers linked yet

Just reach out and we'll help you check in under a minute.

Can you still book my offer if I don't turn this on?

Yes—but it will be **slower and more manual**, and in some cases, offers can disappear before we're able to secure them.
